Race Descriptions

Australian Pursuit – A race where riders start at differing equidistant points around the track. The object is to catch the riders in front and therefore eliminate them from the race. The winner is the last rider remaining (not passed by anyone), or who catches the most in so many laps.

Avalanche - Unknown Snowball (see Snowball definition)

Belgian Win-n-Out - 12 lap race(4x3) with the first bell ringing with 10 to go in the race. The first rider across the line on the next lap takes 4th place. The second bell is rung at 7 to go and that is for 3rd place, 3rd bell is at 4 to go and that is for 2nd place. With 1 to go the final bell indicates 1st place, however if you place 2nd in the final sprint you would win 5th place (not 2nd). Being greedy my not pay! A bit of a gamble to wait for the win and not get it.

BlackJack Points Race – A type of points race where the goal is to get 21 points, if you bust you start over at zero. After a neutral lap points are awarded every other lap. The points awarded are randomized by drawing a card from a deck. Once a rider hits 21 points the remaining places are awarded by the current points totals. If the joker is pulled the race turns into a 1 lap scratch race where the points accumulated do not matter.

Chariot Race – A chariot is an all out one-lap sprint for the finish line from a held standing start. Holders can push riders but may not step across the start line. Riders generally win from heats of 3-8 to make a final. At the starting gun there is one lap to go!

Cops and Robbers - A 5 lap race where the goal is to catch the rider off the front. One rider “robber” starts from a flying start. The pack “cops” start once the “robber” hits the pursuit line or start line on the home straightaway. The “robber” starts with \$30, if they stay away they keep the money. The first “cop” that catches the robber gets \$15, the 2nd \$10 and the 3rd \$5.

Elimination – This is run exactly like the Miss-n-Out (see Miss-n-Out definition) but goes until there is only one rider remaining.

Elimination to Keirin – After a neutral lap, the riders will get a bell indicating that on the next lap, the last wheel across the finish line will be pulled. This will happen on each lap until 6 riders are remaining. The remaining riders will fall in line behind the motor as it rolls out on the back straight. The rider who was first across the line on the last elimination lap will have the obligation to take the motor unless it is taken by another rider. From there the riders will see 3 laps to go with the motor bike pulling off the track on the back straight pursuit line with 1.5 laps to go. As soon as riders are behind the motor, standard keirin rules apply.

JB Tempo – a tempo is run just like a Point-a-Lap, but with 2 and 1 points going to the first and second riders across the line each lap. The final lap is also worth 2 and 1 points. The rider with the most points at the end of the race wins. Ties are broken by the final sprint.

JB Keirin – The JB Keirin is our take on the traditional Keirin - a 4 lap race with 6-8 riders starting from a standing start. The riders draft behind a motorpacer for the first 2.5 laps with the motorcycle gradually accelerating up to 50 kmph before it departs from the track. Riders draw for position prior to the race and must fall into order once the race starts, after half a lap riders can reposition themselves. Once the motor pulls off, with 1.5 laps to go, it is an all-out sprint for the finish line. Riders cannot fully pass the motor before it exits the track.

Keirin – The Keirin is a 4 lap race with 6-8 riders starting from a standing start. The riders draft behind a motorpacer for the first 2 laps with the motorcycle gradually accelerating up to 32 mph before it departs from the track. Riders draw for position prior to the race and must fall into order once the race starts, after 1 lap riders can reposition themselves as long as one rider takes the position directly behind the pacer. Once the motor pulls off, with two to go it is an all-out sprint for the finish line. Riders cannot pass the leading edge of the front wheel of the motor before it exits the track.

International Omnium - Points are accumulated in the first 3 races (scratch, tempo, elimination) (1st – 15, 2nd – 14, 3rd – 13 , etc). Each point then won during the final event – the points race – is added to the riders point total. The rider with the highest score at the end of the points race is the winner. Prizes and upgrade points are based off the overall omnium results for the night.

International Tempo – after the completion of 3 laps the bell will be rung to indicate the start of the sprint laps. The first rider in each sprint shall be awarded 1 point, including the final sprint. Any rider that gains a lap on the main field is awarded 20 points and any rider that loses a lap will lose 20 points.

Madison – The Madison is a high speed, two person points race relay. One partner from each team starts the race from the rail while the “resting” partner pedals slowly along the top of the track. Partners exchange positions by pulling even with each other and then relaying or “slinging” the incoming partner into the race. Like a points race, sprints occurs at pre-determined intervals (typically every 5 laps) during the race, with points awarded the same as a Points Race. If a team laps the field 20 points are awarded, ties are broken by finishing position in the final sprint.

Marymoor Crawl (The Original Longest Lap!) – An event typically open to all racers on that evening. It is a timed track stand (balancing) contest rolled into a chariot race. Riders stage in turn 4 of the velodrome and roll off once the race is on. They may not cross the start line until an unknown timed bell is rung, indicating a 1 lap sprint. During the time prior to the bell, riders may not roll backwards per Sprint Rules; may not touch another rider; may not touch the rail; must stay on the track surface; may not put a foot down on the track surface.

Miss-n-Out – This is another mass start race with all riders starting from the rail. After a neutral lap, the riders will get a bell indicating that on the next lap, the last wheel across the finish line will be pulled. This will happen on each lap until a predetermined number of riders (3 to 5) are left. The remaining riders are given a no pull lap and then the last lap is a sprint for the finish line with the first rider across the line winning.

OneKnown – An unknown distance with a twist. Prior to the race everyone will write down the numbers of laps that they want the race to be. A prime lap will ring within the first 5 laps. Whoever wins that prime lap their card is pulled and that is the unknown distance length, a bell will ring the lap prior signifying the last lap. That racer and the officials are the only people that knows the length hence the name – “one” known.

Poker Point-a-Lap – Every lap a card will be revealed and won by a rider the next time across the line. After a set number of laps the rider who has assembled the best 5 card poker hand will be the winner. There is no limit to the amount of cards riders can win. Riders will be placed by the ranking of their hand (Flush beats pair, pair beats high card) and by finishing position in the last sprint if they have no cards. Ace high might be enough for a podium.

Point-a-Lap – A Point-a-Lap is a mass start race run over a set distance with all riders starting from the rail. After a neutral lap, the first rider across the line for each lap earns one point. Second place earns zero points. Final sprint awards 3,2,1 points to the first 3 riders. Rider with the most points at the end of the race wins. Ties are broken by the finish sprint.

Points Race – A points race is a mixture of sprinting and fast endurance racing. A predetermined number of sprints occur at set intervals. For example, a 6x5 points race will have 6 sprints every 5 laps. A bell

rings with one lap to go before each sprint. Points are awarded to the top 4 riders across the line for each sprint (5,3,2,1), the last sprint has double points (10,6,4,2). Riders are awarded 20 points if they lap the field – or conversely have 20 points subtracted if they lose a lap to the main field. The rider with the most points at the end of the race wins. Ties are broken by the finish sprint.

Scratch Race – The scratch race is a basic mass start race. All riders start from the rail and race for a set number of laps. A neutral lap may be required at the discretion of the officials. A bell rings with one lap to go. First rider across the line wins.

Snowball – A Snowball is a mass start race run over a set distance. The first rider across the line at the end of the first lap earns one point. The first rider across the line at the end of the second lap earns 2 points, etc., with the number of points for the first rider across the line for each lap “snowballing” until the end of the race. Points only accumulate with the leader of the lap. The rider with the most points at the end of the race wins. Ties are broken by the finish sprint.

Split Scratch - A points race with two sprints (5,3,2,1 both sprints).

Stayers' Race(Derny) – Elite riders act as pacers for juniors in a novelty scratch race. 10-15 lap scratch race distance where the combo must stay together, finish is based on the juniors front wheel.

Unknown Distance (Scratch) – As its name implies, the Unknown Distance is a mass start “scratch race” run over an unknown distance. A bell rings with one lap to go to signal the sprint to the finish.

Unknown Points Race - A set distance of total laps with a predetermined number of sprints, besides the last lap the riders don't know when the intermediate sprints will be. Intermediate sprints will be 5,3,2,1, the final will be 10,6,4,2.

Wheel Race (handicapped scratch) – Riders are handicapped based on their categories and abilities. Stronger riders are given a greater distance to complete. All riders for the night can participate and have an equal chance in winning.

Win-n-Out - 12 lap race(4x3) with the first bell ringing with 10 laps to go in the race. The first rider across the line on the next lap takes 1st place. The second bell will ring at 7 to go and that is for 2nd place, 3rd bell is at 4 to go and that is for 3rd, the last bell is at 1 to go and that is for 4th and the rest of the placings.

Winners Race - a race with 4 or 5 sprints at equal distance (every 2-3 laps depending on the category). To be able to contest the final sprint, you have to win one of the first 3 or 4 sprints. You can not win more than one spot, if you are first over the line for a second sprint the spot goes to the 2nd place rider. After the 2nd to last sprint, the rest of the bunch leaves the track, the lower positions are awarded then. The winners of the previous sprints contest the last sprint for the final placings, if a rider that won an earlier sprint is dropped and pulls out, they get last position in the final sprint.

Series Details:

- We plan on making the call early about rain cancellations.
- Upgrade Points available for category racing where applicable.
- Sunday Racing is NOT a part of the normal weekly omniums.
- Category Racing at 1pm is USACycling Sanctioned.

Sunday Prizes:

- Daily Omnium prizes will be merchandise and donations.
- Sunday Season Prizes will be based off a raffle system. 1 “ticket” per day raced plus extra “tickets” for podium places. We will be announcing prizes throughout the season.
- Prizes will be awarded at the Season Awards Party.

Sprinters will be racing an Omnium which will include the Flying 200m, 3 Rides of a Round Robin Tournament and a finishing Keirin. The Keirin will be in groups of 6 depending on your 200 qualification time.

Cat 4 Men, Women, and the Open 1/2/3 will be racing an International Omnium. Points will be awarded based on placing for the first 3 races, the final points race points will be added to those points for the overall placement.

2021 FNR Nightly Prize Distribution

2021 CHANGE – Due to the anticipated oddities around the season and our projected budget we are decreasing our nightly payout amount.

2021 FNR Season Overall

2021 CHANGE – Due to the anticipated oddities around the season and our projected budget we are eliminating the overall payout for 2021. There is still the honor of winning your category and points will be tracked. Season omnium will drop your lowest nightly point total (excludes canceled race nights). Kickoff Friday count for season points. Saturday Kickoff, Sunday Racing, Vision GP, Fred's Race do NOT count. **No participation points for 2021** except novelty race starts will grant 1 pt.

2021 Madison Series Details

~~**CANCELLED FOR 2021** We have Madison's scheduled for June 4th, July 9th, August 6th and September 10th. Register your team (team name, and primary two team members) with the race director at your first race of the season. Subs are allowed with approval of the race director, but one primary rider must ride each round. Points awarded will be the points earned in the events, the races will be scored as "featured" so more points are awarded. The first 4 events will have one Madison a night, the finale will have 2 Madisons. In Season Madison races will have a separate prize pool as well (\$40,\$30,\$20). Winners will receive custom belts that they can gloat about for a season until they are passed on to the next team.~~

2021 Team Omnium

~~**CANCELLED FOR 2021** Racers that score points in the following categories (Cat 4 M, Cat 4 W, Cat 3 M, Cat 1/2/3 W, Cat 1/2 M) will add to their team's total. The team with the most points will receive a painted apron spot for the next season. The design will need to be approved but teams can have some fun with the design (promote a sponsor, advertise your team, flaunt a little bit, etc).~~

2021 KICK-OFF EVENT – May 28th & 29th

WHEN: May 28th & 29th Friday- 7pm, Saturday 10am & 6pm.

Breakdown of race schedule are on 2nd page.

WHERE: The Jerry Baker Memorial Velodrome is located at King County's Marymoor Park in Redmond, WA. Take SR 520 to Marymoor Park Exit and follow signs to park and velodrome.

WHO: Cat 1/2 Men, Cat 3 Men, Cat 4 Men, Juniors, Cat 1-4 Women (Cat 1/2/3 and Cat 4 women will be split if both have more than 8 riders), Cat 5 men are eligible for the Saturday morning events (pursuit, sprints, etc).

WHAT TO BRING: USA Cycling or UCI License, a fixed gear track bike (for mass start races Cat 4-5 Men/Cat 4 Women are restricted to a 22'3" roll out (86" gear or 48x15), juniors are restricted to USAC standards) with no brakes and an approved helmet. Be prepared for varying weather conditions with extra warm clothes. **RAIN delays or cancels racing!** Check Twitter feeds for the latest updates (@jbvelodrome)

ENTRY FEE: \$30 per nightly session (Friday PM, Saturday AM and Saturday PM), \$40 for non-members. \$10 per TT, max \$20 if just doing the TT session. Junior entry is \$15 per session. Annual JBMV Memberships are sold at the Velodrome for \$80. RENTAL track bikes are available for \$10/night (free for juniors, women and new riders). Rental bikes are subject to availability on a first come, first serve basis.

PRIZES: Prizes will be based of regular FNR season prizes. Friday will be per race prizes and Saturday will be based of the International Omnium placings. Each night counts as separate upgrade points per the nightly omniums.

SANCTION: USA Cycling Permit #2021-5556

That means you must be a USAC member or have a UCI Race License. Annual or one-day USAC memberships can be purchased at race registration, but it is much quicker to get your USA Cycling license online at www.usacycling.org. Remember to print out your "ready to race form" as you will need to present that prior to your membership card arriving in the mail, or have proof with the USAC App on your mobile device.

Notes about how this works:

- Points for each race 7,5,3,2,1
- Prizes based off 2-day totals
- *Warm Up Scratch Races
 - Warm up race. As soon as one group finishes, the next group rolls out on their neutral lap. No points
- Wheel race
 - Seeded based on program director seeding day 1 and standings on day 2. Leader rides scratch.
 - Madison teams, both riders start at the same meter marker. Both can score points
- 4 up sprints will be based on current standings. So 1-4 ride together, 5-8 ride together etc. Every round is awarded 7-5-3-2 points.
- Keirins groups will be based on current standings. . So 1-5 ride together, 6-10 ride together etc. Every round is awarded 7-5-3-2 points. All rides are awarded 7-5-3-2-1.
- Points & Madisons at the end of the night are straight points on your totals.
- For the madison group, 1 rider will ride the sprint event, the other rider will ride the following endurance race.

4 th		\$20	
5 th		\$10	

Race Numbers: Regular JBMV numbers will be worn, if you do not have any, you will be issued some during check-in. Numbers will be worn on both sides except timed events where one is needed.

NOTE: Gear restrictions will only be applied to junior racers.

Fred C Rehberger Team Omnium Trophy: The USAC registered Washington state team with the highest number of top three placings across all categories (elite/masters/juniors) wins the Washington State Team Omnium Award (Fred's Trophy). Team and all riders must be USAC registered in Washington State and reflected on their USAC license. There are no exceptions or "guest" riders. Composite teams are not eligible for competition. Riders are only eligible for one point per event raced, i.e., if a rider races the elite and masters individual pursuit and gets podiums in both, only one point will count towards the team omnium trophy.

Sanction: Sanction: USA Cycling permit # 2021-6099/4086. All racers must have USA Cycling license or UCI license. All racers must have a current USA Cycling license (annual or one-day) which can be purchased at www.usacycling.org (not for sale at the race). No one day licenses available onsite, must purchase online beforehand. All riders must have prior track experience, completed the Intro Track class or have permission of Chief Referee and/or Race Director to compete.

NOTE: The combining of race categories and altering length of race are subject to change under the discretion of the chief referee, race director and/or promoter based on participation or other situations as necessary. See velodrome website and social media for changes.

Fred's Race 2021

Race Book Details

Schedule is subject to change at the discretion of the Race Director and Chief Referee.

Riders that are not starting races shall inform the race secretary.

Medals will be awarded by age groups where applicable unless stated otherwise - 5 year age groups for Masters and 2 year age groups for juniors.

Gear Restrictions only apply to junior athletes racing in junior categories. Rollout will be done prior to the session start.

Juniors racing in 15-18 categories have unrestricted gears.

17-18: Unrestricted

15-16: 6.93 meters (22'9")

13-14: 6.45 meters (21'2")

9-12: 6.05 meters (19'10 1/4")

Timed Events are all being run as finals (no second rides). We will be using the JBMV electronic timing system.

500m will be run 1-up

1k, 2k, 3k, 4ks will be run 2-ups

Team Sprint and Team Pursuits will be run 1-up

JBMV Keirin Rules - **Heats** - Riders will assemble behind the e-bike in the warm up circle and roll onto the track, receiving a whistle to signal the start of the race with 4 to go. **Finals** - Riders will be held at the pursuit line for a traditional start, you will need to be on time. The e-bike will leave the track with 1.5 laps to go.

Saturday AM Keirin Heats depend on rider registration numbers, updates on the schedule will be posted Friday morning.

The Sprint Tournament will start no earlier than Noon on Sunday, starting with Flying 200m. Sprint Tournament Formats will be posted once we know registration numbers.

Elite/17-18 International Omnium will be scored with the JBMV modified values (we aren't racing an 80 lap points race so the first 3 race numbers are tweaked). See points breakdown on the next page.

Riders being withdrawn from events other than the Elimination have 15 points deducted Riders listed as DNS for an event have 30 points deducted.

To clarify International Tempo - no points the first 4 laps, bell rings then 1 point per lap.
